SOLUTIONS

Cloud Sites Hosting

Cloud Sites Handle Your Web Site and Email Better
Across An Entire Cluster of Servers with High Availability

Enter the Cloud:
Cluster Servers

• Load balanced traffic and resources.
• The solution that provides you with high redundancy with high availability through cluster servers, giving you a solution that exceeds that of shared hosting and an excellent medium for starting businesses.

1

HIGH AVAILABILITY
Redundancy

Cloud sites use cluster servers to ensure that each step of data security and transfer is redundant and more secure than shared hosting can offer.
Edge: Increased data security with your data spread and balanced across many cluster servers, leaving no single point of failure.

2

HYBRID HOSTING
Platform Flexibility

Linux or Windows can be hosted on the sites at no extra cost, this is particularly essential for business owners and windows web developers.
Edge: Flexibility to choose between Linux or Windows providing a more customized options to properly cater what you specifically need.

3

MANAGED WITH 24/7 SUPPORT
Managed for you

Managed hosting means you can focus on your business and leave the support issues to us. Additional 24/7 support via calls and ticketing also available for any concerns.
Edge: Less technical concerns due to managed option allowing business focus with quick response support available.

4

MULTI-HOMED NETWORK
100% Network Uptime

A multi-homed physical network with more than 6 top-tier network connections provide layers of redundancy, and better network paths for data to go through.
Edge: Faster data transfers between locations because of added top tier networks. Redundant connections ensuring 100% network uptime.
Top Tier Connections: SingTel (Global), SingNet (SG), NTT (JP, US), PCCW (HK, CN), DTAG (EU), HE (US)

Specifications

FEATURES	Gold	Platinum	Diamond	Titanium
• Web Space	1GB	2GB	4GB	8GB
